

# Reds' Leaders Plan Italian Soviet Army

## Recruiting Drive Will Be Carried On in Every Large City and Anarchist Chief Gives Help in Program

### Premier Asks Compromise Workmen and Employers in Metal Trade Called On to End Fight by Parley

ROME, Sept. 16.—Preparations for recruiting an Italian Soviet army are going on in Milan, Turin, Rome, Naples and other large cities throughout the country, according to a statement to the effect by a superior officer of the Italian army. It is said that one of the leading chiefs of the soviet organization is Enrico Malatesta, the anarchist chief.

Signor Vella, a member of the Chamber of Deputies from Sicily and ranked among the extreme revolutionists in the Chamber, denies in an interview with the Tribune any connection with this alleged Bolshevik army. Vella, enlisted during the war, and refused promotion, and later was court-martialed for disseminating anti-war propaganda. He was convicted and received an additional sentence for contempt of court.

**Plans to End Metal Problem**

Premier Giolitti has decided to attempt the solution of the metal workers' complication by appointing a commission comprising manufacturers and workmen to prepare a settlement plan. It was said today.

The Premier, according to Turin advice, reached this decision after having heard representatives of both the workers and the manufacturers present their cases to him at conferences in that city. A decree will be issued naming the commissioners.

The project for the conduct of the work, it is added, will be presented by the government to the Houses of Parliament when their sessions open.

**TURIN, Italy, Sept. 16.**—Circulation of automobiles and motor lorries has been prohibited in the district of Biella, one of the most important industrial centers of Piedmont, the authorities claiming that in the interest of public order. Signor Barberis, Socialist, has visited plants in this city and inspected machine guns in possession of the workmen occupying them. He is credited with saying that "the bourgeois power is tottering."

**Decisive Intervention Sought**

It is believed Premier Giolitti's intervention in the crisis will be of a decisive nature, as it is said he desires to announce to the Senate on Friday that a solution of the conflict is imminent, and hopes are now entertained that it will be over by the end of the present week.

Conciliation and moderation are being urged by Signor Giolitti in his conferences with workmen and employers now in progress here in the hope that a compromise which will satisfy both sides may be reached. A section of the employers has suggested that it might accept intervention in the management of factories, and representatives of the workmen have asked if this intervention would be exercised by the state in the interests of the men.

# Polish Threat to Invade Silesia Alarms Germany

**Berlin, Sept. 16.**—Alarming reports reached here this afternoon regarding the situation in the great coal fields of Upper Silesia, where, under the peace treaty, the population by a plebiscite must decide whether the area remains German or becomes Polish.

Polish troops are said to be concentrating near the German frontier to invade Upper Silesia. The German government regards the situation as highly serious, and has instructed its ambassadors to make representations to the governments of Great Britain, France and Italy.

Coincidentally, the German representatives in Upper Silesia have been instructed to present a note to General Le Rond, head of the inter-Allied Commission there, charging that the Poles have prepared plans for occupying Upper Silesia and are drilling 10,000 troops on the frontier, awaiting an opportunity to seize the territory. Le Rond is urged by the representatives to intervene before it is too late.

# Moscow to Send Red Organizers to America

TOKIO, Sept. 16.—According to semi-official dispatches reaching Tokio, concrete plans for Bolshevizing the world have been perfected in Moscow, and agents shortly will be detailed to America, Japan, China and Asia, generally, for the campaign.

The plan includes a propaganda offensive against Germany, according to these advices, which declared Bolshevik agents already were active in England and France.

# French Grow More Hostile to League As Council Meets

## Paris Suspicious of Move Afoot for Immediate Entry of Germany; May Change Financial Clauses

**Special Cable to The Tribune**  
Copyright, 1920, New York Tribune Inc.

PARIS, Sept. 16.—The Council of the League of Nations met here today almost unnoticed by the public and the press. The French are becoming more and more hostile to the league. It is reported that the doctrines of Maynard Keynes continue to gain ground in the financial section and that the delegates of the neutral nations hope for what practically amounts to a revision at the Brussels conference of the financial clauses of the treaty of Versailles.

These are facts which in themselves rouse the French to hostility. France also is suspicious of the movement afoot for the immediate entry of Germany into the league. It is announced, many into the league. It is announced, however, that this subject was not discussed at the session today.

The meeting registered a number of acts which either were pure formalities or of little importance. Among the matters before the council when it met was the report of a committee of jurists on the disposition of the Aaland Islands, which are in dispute between Finland and Sweden. The council registered the ratification of the plebiscite at Eupen and Malmedy, where the vote was overwhelming in favor of Belgium. The council also was called upon to sanction the payment by the league of five and a half million Swiss francs for the Hotel National at Geneva. It will have to appropriate additional large sums to convert the hotel into suitable headquarters.

Poland went through the form of appealing to the league in the dispute with Lithuania and the league called representatives of the two countries to Paris. However, as Poland and Lithuania have already settled their dispute in private conference this question is of small importance in league politics.

The council took up the question of immigration between Bulgaria and Greece and discussed the administration of the Saar basin.

The Reparation Commission has decided that its representatives at the Brussels financial congress shall attend it only as observers. The French, resenting the league's interference in what the French regard as a matter purely belonging to the work of the Reparation Commission, insist that the decision reached at Brussels is only consultative and they refuse to make any kind of a promise that these decisions will be accepted by the French government.

# Reds' Control Is Absolute in Northern Italy

## All Attempts by Capital to Put Pressure on Soviets Met by United Action of Workers in Other Plants

### Troop Trains Are Stopped

#### Railroads Give Preference to Supplies for Bolsheviks; Factories Fill All Orders

By Ralph Courtney  
*Special Cable to The Tribune*  
Copyright, 1920, New York Tribune Inc.

MILAN, Sept. 16.—The Reds for the moment are all powerful in Northern Italy. This is illustrated by the numerous unsuccessful attempts by the authorities and capitalists to put pressure on the sovietized factories. Workers in other industries immediately rushed to the defense of the metallurgists when their help was needed. For instance the electricians recently sent an ultimatum that they would not supply light or power for any one if an attempt was made to cut off power from the Red factories. Railwaymen have stopped troop trains at Bologna and sent them back southward.

There are no conflicts, so far, between Reds in the North and troops stationed there. The Reds are trying to prevent reinforcements from reaching Milan.

Last week, when the famous Pirelli rubber factory refused to supply motor tires to the workshops occupied by Soviets the employees of Pirelli's plant seized the works themselves and undertook to supply the tires for Red motor cars. One thousand Pirelli workers are now operating under their own Soviet. Red flags are flying from the factory roof. In the managing director's office there now sits a council of twenty workmen. Over their heads, embroidered in red and white, hangs a banner bearing the famous crossed hammer and sickle of the Russian soviet.

**Guard Factory Night and Day**

Pirelli shop stewards are wearing red armlets as a sign of their authority. Red guards are posted at the windows and at all strategic points along the factory wall. The gates, also, are manned by Red guards. Planks and mattresses are spread at convenient places for the accommodation of the workers who guard the factory night and day.

Half of the male personnel of the establishment works, eats and sleeps in the factory.

Reports are in circulation that leaders of the Confederation of Labor to-night are considering further extension of Soviet occupation of factories. Extremists in the party continue to urge not only the occupation of factories in all Italian industries, but publication of a declaration of their expropriation.

Italian workers anxiously are watching the labor movements in France, America and particularly England. They are appealing especially to French and English workers to prevent their governments from stopping supplies of raw material for Italy.

Fear is expressed also that foreign governments will forbid the purchase of goods from the Red "selling organization" in Italy.

It is now declared in trade union circles that Italy's metal industry has

# Austrians Insist on Union With Germany

VIENNA, Sept. 16.—Removal of the prohibition against the union of Austria and Germany will be requested of the Council of the League of Nations at the meeting that body will hold in Paris in November, Dr. Carl Renner, Chancellor of the Austrian Republic, announced yesterday in an address at Innsbruck.

"Annexation to Germany must and will come about, for the whole proletariat body desires that union and is prepared to fight for it," he said.

sufficient raw material in hand to continue producing for two months longer. Central and local committees are being organized for the disposal of Red goods to consumers at home and abroad.

The Milan Central Soviet controls 1,000 metallurgical establishments employing a quarter of a million men and women. At its head are three young Italian workmen. They probably bear greater responsibility at this moment than any other trio of industrial magnates in the world. They are the general staff of the whole sovietized metal industry of Lombardy. Their headquarters are in Milan, where they sit in council beneath the portraits of Karl Marx and Lenin. Each factory under their control already has furnished the exact particulars of its personnel, its arrangements for defense, its daily output, its stocks and its requirements of raw material.

**Authorities Don't Interfere**

This committee daily orders exchange of raw material between factories as they are required by their statistical records. Meanwhile the sympathetic railwaymen are diverting to Milan all consignments of material required by the Soviet organization. Lorrys loaded with Soviet stores pass through the streets all day some flying the red flag on the radiator.

# MacSwiney Is Nearly Worn Out, His Wife Says

**A. F. of L. Delegate Carries Fraternal Greetings to the Mayor; 35th Day of Strike**  
LONDON, Sept. 16.—The evening bulletin of the Irish Self-Determination League quotes Mrs. MacSwiney, wife of the Lord Mayor of Cork, who is on a hunger strike in Brixton prison, as saying her husband is "nearly worn out." Mrs. MacSwiney visited her husband this afternoon. This was the thirty-fifth day of MacSwiney's strike.

"He is extremely weak; he is nearly worn out," said Mrs. MacSwiney. Miss Annie MacSwiney, sister of the imprisoned man, is quoted as having said that the Lord Mayor "remains very exhausted."

Timothy Healey, a delegate of the American Federation of Labor, called at the prison today to convey fraternal greetings to MacSwiney.

**CORK, Sept. 16.**—With the exception of Sean Hennessy, the nineteen-year-old boy, all the hunger strikers in Cork jail were conscious this morning. Peter Crowley, eighteen years old, the youngest of the eleven hunger strikers, was reported in a critical condition today, as also was Kenny.

The prison physicians reported that the prisoners were emaciated, that their restlessness was more marked and that there was a gradual failing in their pulses.

# The Stage Door

At the Bramhall Playhouse to-night the Celtic Players will present J. M. Synge's tragedy, "Deirdre of the Sorrows," for the first time in America.

William Fox will present "Over the Hill to the Poorhouse," the screen version of Will Carleton's poem, at the Astor Theatre to-night.

Owen Davis's farce, "Marry the Poor Girl," which Oliver Morosco had announced for presentation at the Little Theatre next Monday evening, will not be seen until Thursday evening. The complete cast includes Isabel Lowe, Frances Mann, Beatrice Noyes, William David, Frank Allworth, William Roselle, Harold de Becker, Ninita Bristol, Gertrude Maitland, Halbert Brown, Stapleton Kent and Maude O'Connor.

Supporting Florence Eldridge in Michael Goldreyer's production of "The Shortcut" will be Keith Macaulay, Ross, James Bradbury Jr., James Boswell and William Lamer. The play will go on tour October 18 for a few weeks before coming to New York.

"The Toreador" went into rehearsal yesterday under the direction of George Marion. The Selwyns will star Leo Carillo in this new play by Lotise Coleman.

"Honeymoon Night," a musical comedy by M. de la Chambeaux, with music by Harold Orlow, will be produced out of town next week by George Ford.

Between the second and third acts of Booth Tarkington's "Folieskin" to-night George Arlino, in costume, will taxi from the Park Theatre to Carnegie Hall, where he will deliver a two-minute address during the progress of
